## DeadPixelBuster to fix dead pixels in digital film

A new solution to fix dead, stuck or hot pixels has just been released by HS-ART. You can see DeadPixelBuster in action at this years **NAB** in Las Vegas at booth **#SL10320** (Lasergraphics).

The tool fixes dead pixels of any appearance in digital film image sequences. It can handle any shaped and sized artefacts and is quick and simple to use. The fully automatic repair can be optimized with an integrated retouching functionality.

The main features are:

- Very simple to use
- Any shape like 1x1, 5x1, 4x4, 8x8, ..., NxM
- Full automatic removal
- Any resolution from SD-4K+
- Available on Windows and Mac
- Integrated interactive clone & retouch tool
- Support for camera RAW formats on request
- Highly affordable, 990 EUR / 1390 USD
