IMAGESTRIP

00:00:18:20 moving image retoucher

# M.I.R.

We are proud to announce the availability of a new tool for manual retouch and restoration of moving images (films), called M.I.R.

This tool is the perfect entry-solution into the booming digital restoration and wire-removal segment. It directly addresses post-houses, labs or any institution dealing with film.

#### Features:

- Convenience: easy cloning from adjacent images using the powerful retouching tool
- Preservation: All repair operations are done with existing image parts
- Efficiency: fast and optimised access to your movies
- Optimisation: for high throughput in a professional environment
- Innovation: the new visualisation concepts Monocle and MicroLoop provide revolutionary progress
- Integration: fits well into DIAMANT, our professional automatic film restoration software

#### Technical characteristics:

- Proved for all resolutions between SD and 6k
- 8,10,12 or 16 bit color depth
- Support for all common single file formats (DPX, CIN, TIFF, TGA, BMP, ...)
- Quicktime support
